Together against violence is a project funded by the EU Daphne III Programme and is being developed in partnership by the Association for Pedagogical and Social Assistance for Children FICE-Bulgaria (BG), Resilis Foundation (ES) and the Federal Association of Therapeutic Communities of Austria (AT).

The project focuses on the prevention of cases of repeat violence by children and youth aged 14-18 in Bulgaria, Spain and Austria. The project relates to identified problems and needs of children perpetrators of violence such as the absence of enough reliable information regarding their number, the factors contributing for perpetration of violence and the effective services available for these children in Bulgaria, Spain and Austria.

The specific goals of the project are directed towards: research and assessment of the factors resulting in acts of violence; description of the current system of services and its effectiveness; improvement of the effectiveness through provision of recommendations information to the professional community.

The International Conference that will be held on 5-6 November 2014 in Barcelona (Spain) will disseminate the results of the project and provide useful recommendations of interest for the wider professional community. The International Conference will also include interesting keynote speeches and the presentation of a project Handbook that will be distributed among the participants.

The contents of this publication are the responsibility of association "FICE-Bulgaria", "Resilis" Foundation and "Federal Association of Therapeutic Communities in Austria" and can in no way be taken to reflect the views of the European Commission.
